DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, drawn to treatment of tumor using Snail.

Group II, claim(s) 2-5, drawn to diagnosis of tumor.

Group III, claim(s) 6-8, drawn to screening assay for therapeutic compounds.

Group IV, claim(s) 13-17, drawn to pharmaceutical products and treatments using materials discovered by screening assays.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: groups I, II, and III are drawn to different methods. Each method differs in method steps, modes of operation, reagents and serves different endpoints and effects. Group IV is drawn to use of an unknown compound that might be discovered in the screening assay of group III.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
